

Editorial

I am delighted and would like to take the pride of publishing the Jaffna Medical Journal as the editor of the Jaffna Medical Association. On behalf of the JMJ Editorial team, I would like to extend a very warm welcome to the readership of JMJ. I take this opportunity to thank our authors, editors and anonymous reviewers, all of whom have volunteered to contribute to the success of the journal. A total of six case reports and two review articles have been published in this volume. I am absolutely certain that the best is yet to come. Within the upcoming years, you can expect updates to the content of this journal. I am happy to have been involved in laying the groundwork. Finally, as we aim to publish two volumes per annum, I wish to encourage more contributions from the Medical community and practitioners to ensure a continued success of the journal. Authors, reviewers and guest editors are always welcome. It should be noted that adherence to the journal's instructions regarding formats and lengths, word limits, punctuation and language, and acceptable document formats enables speedy review and increases the chance of acceptance. We also welcome comments and suggestions that could improve the quality of the journal. Thank you. We hope you will find the JMJ informative.

Thank you
Dr. Ajantha Keshavaraj
